2018–2019 ROAD TRIP ITINERARY PACKAGE

The world comes out west expecting to see cowboys driving horses through the streets of downtown; pronghorn butting heads on windswept bluffs; clouds encircling the towering granite pinnacles of the Bighorn Mountains; and endless expanses of wild, open country. These are some of the fibers that have been stitched together over time to create the patchwork quilt of Sheridan's identity, each part and parcel to the Wyoming experience. But what you may not have been expecting when you came way out West was a thriving, historic downtown district, with western allure, hospitality and good graces to spare; a vibrant art scene; bombastic craft culture; postcard-perfect small towns; a robust festival and events calendar; and living history from one corner of the County to the next.

This package includes four travel itineraries that serve up some of the best experiences Sheridan County and Wyoming have to offer, including National Parks and National Monuments, working dude ranches, small town charm, wilderness and National Forests, and so much more. Each can be completed in the time described, but don't feel the need to rush - Wyoming is best experienced slowly. Allow 2-3 weeks for each for a truly immersive experience.
